DISCUSSION PER POINT:

- 1) Hosting City 2018
- 2) Candidate Hosting City 2019-2020
- 3) Compulsory sports and Promotional sports
- 4) Suggestion on Sport Event
- 5) Other

1) **Hosting City 2018:** the 2 Candidate cities are Madrid and Barcelona. The participants talked about the pros and cons of both cities

2) **Candidate Hosting City 2019-2020:** the participants talked about the future hosting cities, and everyone agrees that the host city should be a large city, with a large airport and an adapt infrastructure system. For 2019 IUSC Committee received the proposal from Dubai and Paris

3) **Compulsory sports and Promotional sports:** the participants suggested to introduce squash, waterpolo and hockey in the next editions of the

Championships. IUSC Committee agrees to introduce one new promotional sport per year and in 2018 it will be Waterpolo male.

4) Suggestion on Sport Event:

- timely communication of the results of the matches: a maxi screen will be installed in the main sport center, where the results in all sports will be updated. Moreover, the results will be published on the Official Facebook Page of the Championships
- immediate communication with the head of delegation about matches modified or cancelled: each head of delegation must have an active whatsapp number on which the organizing committee can communicate any change
- Tour Operator: for the WIUC 2018 we decided to change the Tour Operator, to make the accommodation process as easy and professional as possible for all the delegation that will need it
- more time for warming up in swimming: the IUSC Committee in agreement with the sports facilities in Barcelona, will work to make it possible

5) Other:

- all the heads of delegation are required to have a WhatsApp number where they can be reached during the Championships and to put “like” on the Official Facebook page (also for the participating athletes / students, so that all are updated)
